Ms. Rzadzki,

Thank you again for your prompt response. As one final follow-up - have any students in your school district during those same years (2019-2020, 2020-2021) been transferred to an alternative school that did not have an IEP, such that the transfer was purely disciplinary in nature? For example, a student who stood accused of gross disobedience and then the school board decided to transfer them to a general education, alternative school instead of expulsion. If so, how many each semester and year? Thank you, again. I genuinely appreciate your responses.

Sincerely,  
James
